

# SECCEN

## Threat Intelligence Platform

### Security Intelligence. Simplified.

AI-Powered Threat Assessment & Crime Analytics

-  Real-Time UK Threat Level Monitoring with Change Alerts
-  5-Year Historical Crime Analytics
-  AI-Generated Intelligence Reports
-  OSINT Public Figure & Sport Team Risk Assessments
-  International Travel Risk Intelligence
-  Multi-Tenant Organisation Management
-  Martyn's Law Compliance Support

# Why SECCEN?

SECCEN consolidates critical security intelligence into a single, intuitive platform. Instead of managing multiple data sources, spreadsheets, and manual threat assessments, security professionals gain instant access to AI-powered analysis, live threat monitoring, and comprehensive crime analytics—all designed for rapid decision-making.

Our platform transforms complex, disparate security data into clear, actionable intelligence—reducing assessment time from hours to minutes.

## KEY DIFFERENTIATORS

### UK-Focused Intelligence

Purpose-built for UK operations with MI5 threat levels and Police.uk data.

### AI-Powered Analysis

Advanced AI synthesises data into professional intelligence reports.

### Historical Depth

5-year crime trends enable pattern identification and forecasting.

### Enterprise Security

Session tracking, inactivity timeouts, and granular access controls.

## DESIGNED FOR

Security Consultancies

Corporate Security Teams

Venue & Event Managers

Close Protection Officers

Facilities Management

Public Sector

# Core Intelligence Capabilities

## Area Intelligence Reports

Comprehensive, AI-powered intelligence assessments for any UK location with crime statistics, threat context, and venue-specific risk factors.

- RAG Risk Rating
- OSINT Analysis
- Crime Integration
- PDF Export

## Public Figure Risk Assessment

OSINT-based threat intelligence for artists, executives, and VIPs with audience demographics, known threats, and venue context analysis.

- OSINT Analysis
- Threat Actor ID
- Audience Profiling
- Risk Rating

## Sport Team Risk Reports

Specialised risk assessments for sporting events with fan base analysis, rival dynamics, and venue-specific security considerations.

- Fan Demographics
- Rival Analysis
- Venue Context
- Match Day Risk

### Crime Statistics & Analytics

Comprehensive crime analysis with Police.uk data and 5 years of historical records. Interactive maps, trend charts, and AI-generated summaries.

- 5-Year History
- Seasonal Trends
- Category Analysis
- AI Summaries

### Real-Time Threat Monitoring

Live UK threat level from MI5 with change alerts, curated security news, and protective security resources including Martyn's Law materials.

- MI5 Threat Level
- Change Alerts
- Security News
- Martyn's Law

### Travel Risk Reports

Comprehensive international travel risk assessments with FCDO advisory data, visa requirements, security analysis, and emergency contacts.

- FCDO Advisories
- Country Profiles
- Risk Rating
- PDF Export

# Intelligence Outputs

	<b>Area Intelligence Report</b>	PDF / Markdown	Location-specific risk assessment
	<b>Public Figure Risk Report</b>	PDF Only	OSINT-based threat profile
	<b>Sport Team Risk Report</b>	PDF Only	Event-specific security assessment
	<b>Crime Statistics Export</b>	Interactive	12-month analysis with 5-year trends
	<b>Travel Risk Report</b>	PDF Only	International travel risk assessment

## RISK RATING SYSTEM

### LOW

Minimal risks identified. Standard precautions.

### MEDIUM

Elevated factors. Enhanced vigilance.

### HIGH

Significant risks. Specific mitigations.

## REGULATORY COMPLIANCE

SECCEN supports organisations in meeting their security obligations:

-  **Martyn's Law (Protect Duty)** — Compliments venue risk assessments and plans
-  **Duty of Care** — Evidence-based documentation
-  **CPNI Guidance** — National infrastructure standards
-  **Corporate Governance** — Due diligence in decisions

# Ready to Transform Your Security Intelligence?

SECCEN provides the intelligence foundation your organisation needs to make informed security decisions. From real-time threat monitoring to comprehensive risk assessments, our platform delivers professional-grade security intelligence without the complexity.

Start protecting what matters today.
